Project

So here's your first project:

Your mission, should you choose to accept it, is to find out how much money you need to spend to eat everything that you do in one day.

Don't worry if you can't do this right now, I am going to provide math tools necessary for you to do this task.

Example with Garlic cloves

Everything Due September 22

Grading

Mark	Translation
0	Nothing is done
1	+ Attempted
2	+ Correct use of equations
3	+ Shows work
4	+ Solution
5	+ Correct Solution with no errors
6	+ Adds presentation
7	+ Perfection (I can't find anything to fix)
